

Eastern Oregon University's full-time, intensive teacher-preparation program blends professional knowledge gained through experience in classroom settings with continuing academic preparation. Our students normally participate in placements at two grade levels in public school classrooms to provide a variety of experience and two levels of authorization, a highly desired outcome to increase job opportunities. Placement begins with the start of the school year at an assigned site in central or eastern Oregon and progresses through a full-time internship ending in spring quarter. During the final summer classes, students complete their course requirements for a Master of Teacher Education Degree.
